PERSONAL PROTECTIVE EQUIPMENT 

COMMERCIAL LAUNDRY WASHING MACHINE

Alkali Booster is formulated to be dispensed directly from the container through an automated injector system into a laundry machine. Alkali booster should not be used where contact with aluminum will be made. Use Alkali Booster with dispensing equipment set.

## HEALTH & SAFETY

- Refer to Safety Data Sheet (SDS) before use.
- Do not allow product to come into contact with skin & eyes.
- If chemical comes into contact with eyes, rinse with sterilised water or saline for at least 15 minutes, and seek medical attention.
- If chemical comes into contact with skin, wash affected area quickly and thoroughly, and seek medical attention.
- Avoid breathing mist & vapours.
- Wash hands after use.
- Wear protective clothing, gloves & chemical goggles.
- Do not mix with other chemicals, only mix with water.
- If poisoning occurs, do not induce vomiting. Seek medical attention.
- Keep out of reach from children.

## SPILL INSTRUCTIONS

Slippery when spilt. To avoid accidents, clean up immediately. Wear protective goggles and gloves to prevent skin and eye contact and avoid breathing in the fumes. Prevent spill run-off from entering drains and waterways. Store in a bunded area. Collect spill using absorbent material then seal in properly labelled containers or drums for disposal.
